

ACCREDITATION PROCEDURE 2024/25

EHF EUROPEAN LEAGUE MEN & EHF EUROPEAN LEAGUE WOMEN

Dear Handball Friends,
Dear Clubs Representatives,

All journalists working for **TV and radio, including webTV, web radio and podcasts**, have to request a media accreditation via the EHF Accreditation System (<https://accreditation.ehf.eu/>).

This is the only way to request accreditation for the **EHF European League Men** and **EHF European League Women** matches. Any other form of request, i.e. via email, will not be processed.

Every journalist or media company must create a profile and can subsequently request accreditation for EHF European League Men and EHF European League Women matches. Without registration to the EHF Accreditation System, there is no access to the respective game.

Regarding the procedure for the clubs:

- EHF Marketing will send a **list of accredited TV, webTV and radio representatives** at least one or two days before each game **only to clubs where accreditation was provided to media representatives**.
 - *The club where media representatives or media companies have not requested the accreditation, will not receive the accreditation list or informative email.*
- Clubs are kindly requested to **prepare the accreditations** for these persons and hand them out on game day.
- TV, internet TV and radio representatives, **who were not granted accreditations by EHF Marketing, are not allowed to enter the halls** during the EHF European League Men and EHF European League Women's match.
- For the avoidance of doubt, the Host Broadcaster of each game **will not need to participate in this accreditation process** and can handle accreditations directly with the club.

Deadline for media accreditations requests:

- The deadline is **3 days (72 hours) prior to the match**.

Important:

- Written media representatives and photographers **continue to request their accreditation via the respective home club**.

If you have any questions related to the accreditation procedure, please, do not hesitate to contact us at mediaTV@ehfmarketing.com.
